MEMORANDUM FOR THE RECORD

SUBJECT: Concealment Vest

1. On 13 May the undersigned turned over to Capt. Stephen, Air Force, three blank vests for their use in locating equipment. These vests had been molded by 

25X1

2. Capt. Stephen stated that he had a requirement for a shoulder holster type vest to hold an Edwards recorder. A band is desired, attached to the vest to hold two M-30 binaural microphones, ear distance apart. These microphones are about the diameter of a half dollar. The switch for activation is to be in the pocket. They are also interested but have no immediate requirement for a concealment shield to hold a recorder and microphone on the back of the leg.
